UDOC “No Changes” Certification Form

Declaration requirements for Unscheduled Discrete Organic Chemicals (UDOCs) are set forth in Part 715 of the CWC Regulations (15 CFR 715).

Unscheduled Discrete Organic Chemical (UDOC) production is declared in broad ranges, therefore, many plant sites’ declarations do not change from year to year. As a convenience, you may use this UDOC “No Changes” Certification Form to meet your declaration requirement.

Submit a separate UDOC “No Changes” Certification Form for each UDOC Plant Site being declared that has no updates or changes to the information declared in the last Annual Declaration on Past Activities, except changes to the Certifying Official and dates submitted and signed in Questions A.4 and A.5.

The UDOC “No Changes” Certification Form may only be used to certify the information declared in your last Annual Declaration on Past Activities or UDOC “No Changes” Certification Form has not changed. If you did not submit an Annual Declaration on Past Activities or a “No Changes” Certification Form last year, you may not use this form.

Your signature on the UDOC “No Changes” Certification Form authorizes the Department of Commerce to use the information from your last year’s Annual Declaration on Past Activities to create an official declaration for your plant site for the current reporting year.

If, after submitting the UDOC “No Changes” Certification Form, there are updates or changes to the declared information, you must submit an Amendment to your Annual Declaration on Past Activities. You must submit a Certification Form and UDOC Form Parts A and B

Question A.1 through A.3 Company Name and Plant Site Name and USC Code: Provide the name of the company, plant site and the plant site USC code. This information must be the same as declared in the last Annual Declaration on Past Activities. If there are any changes to this information, you must complete an Annual Declaration on Past Activities, including the Certification Form and UDOC Form Parts A and B.

Questions A.4 and A.5 Date Submitted and Certification: The Certification must be signed and dated by the owner, operator, or senior management official who certifies the accuracy and completeness of the information submitted. The certification signature block must contain an original signature. The date submitted block should indicate the date the certification is submitted.
